## Poulies débrayables

### Poulies débrayables d'alternateur

Une tendance manifeste de l'industrie automobile est d'accroître la taille des alternateurs et de réduire de plus en plus le volume des moteurs. Pour éviter le bruit, le glissement ou l'usure de la courroie et les problèmes de durabilité des roulements, l'OAD est une solution efficace.

L'OAD Litens est un dispositif d'ajustage pour l'entraînement du moteur à courroie qui apporte beaucoup de bénéfices et d'améliorations importants dans un large éventail d'applications pour le moteur et le véhicule.

Pourquoi utiliser les poulies débrayables OAD ? Pour profiter des avantages suivants :

- Durée de vie prolongée de la courroie et des composants du système d'entraînement (jusqu'à deux fois plus grande).
- Durée de vie prolongée du tendeur. ce qui signifie que l'alternateur, la pompe à eau et les autres roulements dureront beaucoup plus longtemps

- Fonctionnement plus silencieux et aisé du système d'entraînement auxiliaire
- Vibrations réduites à l'intérieur de l'habitacle.
- Meilleure économie de carburant (1 à 2 %, en fonction de l'application) en raison d'un frottement réduit du système d'entraînement par courroie.

Toujours remplacer la technologie de poulie d'origine par la même technologie de pièces de rechange. Vous ne risquez donc rien en achetant des poulies OAD chez HC-CARGO.

Pour trouver le revendeur HC-CARGO le plus proche ou découvrir l'ensemble de notre gamme, consultez le site
